WHAT DO I GET ON THE WORKSHOPS?

Within this day, you will find more than 20 discrete routines, ideas and techniques (you will be supplied the physical gimmicks etc in the SNT kit and SMS) that you can use to enhance, enliven and enrich your delivery.

Why we believe what we do

All of these will be demonstrated and explained with practical advice on their use in the workshop. The day will use both the Show, Not Tell kit and the Sleight of Mind Set (each available separately but are included as part of the day. For more information, visit the SNT kit.) All of these 20 items are entertaining, informative, engaging and practical for you to apply to your delivery.

To see what's in the SNT kit and for more information, please look at mindsways.com/SNT/

Using the materials from the SNT and SMS, you will discover a wealth of practical, real world techniques that can be applied to coaching, training, consultancy, presenting, goal setting, business, personal development and therapy.

As well as the delivery of the SNT and SMS, we will explore why we believe what we do, why we believe weird things. The workshop weaves a path through Psychological Artistry, Mind Magic, neuroscience and practical delivery methods.

Innovation and creativity lies at the heart of Psychological Artistry and Mind Magic, so whether you are already actively engaged in using your creative skills or just looking to stimulate and nurture your creativity, you will find practical tools for releasing the spirit of innovation and creativity on the Sleight of Mind Set workshop.

WHAT IS PSYCHOLOGICAL ARTISTRY?

A couple of interesting examples of how all is not as it appears are the McGurk effect and Prof Richard Wiseman's "The Incredible Colour Changing Card Effect". [Please take a look here](#) or visit mindsways.com/SMS. I would love to know what you think. These illustrate both the power and the approach of psychological artistry.
